ACLS instructor	1990-2000
PALS certification	1990-2002
ANA member	2014-present

Grants/Awards/Honor

ECCL funding for research Topic: Major Exams that influence NCLEX-RN performance	Fall 2009
Mensa scholarship	Fall 2008

DNP Projects/Dissertations

Current PICO statement: Among the adult Veteran population presenting to the emergency department with risk of sepsis, how does the use of the evidence-based practice of standard sepsis protocols as compared to the current practice of not executing sepsis protocols in triage affect the number of veterans receiving antimicrobial therapy within three hours of presentation to the ED over the course of six months? Chair of Committee- 2019

Current PICO statement; Among ER nurses transitioning care to inpatient nurses for patients admitted with severe sepsis (P), how would using a standardized verbal handoff tool (SBAR) (I) compared to current inpatient practice (C) affect the rate of sepsis bundle compliance and patient outcomes (O) over the course of three hours and six hours (T)?

Chair of Committee-2019

Current PICO statement; Among patients diagnosed with a CVA who are admitted to the hospital from the emergency department, how will implementing a thickened-supplement, in addition to the current policy of water alone, affect the rate of aspiration within the first 24 hours after admission? Chair of Committee-2019

A Practice Change to Eliminate Prophylactic Antibiotics for Elective Percutaneous Jejunostomy Co-Chair, defended Nov 2018

Current PICO statement; Among Clinical Nurse Specialists/ Clinical Specialists on a Clinical Excellence Council in a three-hospital community healthcare system (P), how does a formal evidence-based practice mentoring program (I), compared to current use of informal mentors (C), affect the number of evidence-based practice or quality improvement projects led or co-led by clinical nurses (O) within the first six months of implementation (T)?

Co-chair of committee-2019
